MONKEY PRODUCTS

SUMMARY

MONKEY PRODUCTS

MONKEY PRODUCTS designs, produces and distributes its bike care products, recognized among the most efficient on the market.

We are passionate about sports, especially cycling for many years. We like to ride and spend as little time as possible to maintain our bike.

With the support of our laboratory, we have launched a range of revolutionary and high-performance products:

First in 2018 with our preventive tubeless liquid then quickly other products were added, such as the bike shampoo, lubricants, brake cleaner and degreaser, until offering a complete range that keeps growing.

Growth so significant that the company moved at the end of 2021 for independent premises of 700m2, still in the Montpellier area.

Each product is the result of a unique and innovative formula thanks to our own laboratory. We have direct control over the formulas of each of our products, production and shipping. This allows us to be responsive in terms of both innovation and timeliness.

BIO PRODUCTS

NEW

BIO BIKE SHINE

A new biodegradable formula, phosphate-free and neutral PH, the BIO BIKE SHINE offers protection against water, dust and mud.

It allows polishing, cleaning and protecting in a single step.

Your bike and its components will stay clean longer.

Make your frame, cranks, handlebars, rims and tires shine. It facilitates friction on the suspension. Can be used before your outings or after washing, the Bike Shine has a repulsive action against mud, dust and water, it reduces the adhesion of impurities and not only repels moisture but dries completely. It leaves a protective layer, which does not stick and increases the lifespan of your bike or your parts.

Features :

- Reduces future cleaning and maintenance work
- Can be used on paints, chromes, all metal and carbon parts, does not alter plastic parts or joints.
- Effortless application, leaves a protective layer that glows for a long time.
- Leaves no trace.

NEW

BIO DEGREASER

Thanks to its biodegradable, neutral PH and phosphate-free formula, the Monkey BIO Degreaser does not damage any material and removes grease, oil and dirt.

Can be used on all types of chains, derailleurs, components and bearings. It allows you to clean faster and with ease. Can be applied to the whole bike thanks to its new formula without phosphate, neutral and biodegradable. Quickly and safely removes deposits of oil, grease, dirt and all contaminants accumulated on metal, plastic, rubber, etc.

Regular use during cleaning will help prevent transmission deterioration. This ensures higher performance for longer. Less cleaning time means more time on the bike!

Features :

- Removes grease, dust, etc. quickly and efficiently.
- Can be used on all types of materials, rubber, metal, plastic, carbon, etc. - Also on all components of your bike (chain, derailleur, bearing, etc.)
- Cleans to the smallest residue of grease, including waterproof.

BIO SOAP

Finally a neutral, hypoallergenic and biodegradable PH soap for your technical clothing! Washes, regenerates and disinfects all types of technical sportswear and accessories in synthetic and natural fibres. Designed to be effective against mud and sweating at low temperatures (30°C). It removes odors and gives its scent to the unique Aloe Vera that stays for a long time with deodorant effect. Designed to suit all skin types, even the most sensitive.

It produces no allergic reactions.

The best formula to take care of you and your equipment. Enriched with molecules that keep technical fibers soft and intact without using a softener. Reduces the formation of bad smells while you are wearing them.

Features :

- Hypoallergenic
- PH neutral, biodegradable.
- Eliminates: sweat and bad odors.
- Cleans: mud, dust, dirt, etc.
- Aroma: Aloe Vera

SEALANT TUBELESS

SEALANT

The preventive liquid Monkey Sauce is undoubtedly a reference in this matter. It provides the best relationship between durability and the ability to repair a puncture. Do not look for more preventive, you found it! Lasts 4 to 6 months before an upgrade. Does not dry or clump. Non-corrosive, it is easy to clean with water. Scientifically developed to prevent bike wheel punctures, the MONKEY SAUCE puncture prevention is part of the new generation of high-performance preventions. The MONKEY SAUCE preventive liquid and its high-quality, low-viscosity latex cover the sides of the tire for a faster seal, it spreads easily and does not unbalance the wheel. It is used successfully in cyclo-cross, road and mountain biking at all levels, From leisure to professional. Don't worry about the terrain or the weather, go for your bike ride in peace. Thanks to its immediate sealing action, the MONKEY SAUCE sealant is ideal for mountain bike tires, chamber-free, tubular and standard road tires. The MONKEY SAUCE repairs punctures up to 6mm! The MONKEY SAUCE can also be used as a preventive measure with the inner tubes. The MONKEY SAUCE air sealant can also be used for wheelbarrows, ATVs, lawn mowers, tractors, dollies, car tires, truck tires, scooters and more. Also suitable for all valves with removable valve shells

Features :

- Can be used year-round, even in freezing conditions.
- Fluid does not dry in the tire but activates as soon as air leaks.
- Bottle must be well agitated before use
- For maximum efficiency against punctures, it must be replaced in the tire every 4 to 6 months

GREASES

NEW

EBIKE FRIENDLY
500ml & 150ml

CARBON GREASE

Assembly grease for carbon parts. Unique formula holding the carbon components together, producing a non-slip effect and reducing friction. Ideal for stem/handlebar, seatpost, etc. By using this grease sensitive carbon components are less stressed and noise is reduced. The mounting grease also offers high protection against corrosion and is very water resistant. This high-performance assembly grease is 100% safe to use on carbon and aluminum parts such as saddle and stem/handlebar assembly. Use Carbon Grease to keep your seatpost from slipping.

Features :

- Create friction
- Carbon fiber compatible
- Water resistant
- Corrosion and antioxidant protection
- Protection from dust, salt, water, dirt, etc.

RRP
150ml : 15,90€
500ml : 29,90€

NEW

WHITE GREASE

EBIKE FRIENDLY
500ml & 150ml

Lubricates and protects your bearings. It is a premium grease for moving parts: crankset housing, steering sets, hubs, friction zones, etc. Provides lasting lubrication. High water resistance, no liquid infiltration, prevents corrosion and oxidation.

Features :

- Lubricating grease
- Excellent for bearings
- Can rise in temperature
- Extreme resistance to water
- Complex lithium based grease
- Corrosion and anti-oxidation protection - Protection from dust, salt, water, dirt, etc.

RRP
150ml : 10,90€
500ml : 21,90€

NEW

CAT GREASE

EBIKE FRIENDLY
500ml & 150ml

Grease dedicated to the assembly of bicycle parts. Recommended on non-mobile parts, no element will remain glued and corrosion has no chance. Every screw you mount should have a layer of this grease. This way, they are well protected and loosen only when you want.

Features :

- High metal adhesion
- Extreme resistance to water
- corrosion protection, anti-oxidation
- Mineral calcium based grease
- Protection from dust, salt, water, dirt, etc.

RRP
150ml : 9,90€
500ml : 19,90€

SPRAYS

BIKE SHINE

Your bike and its components will stay clean longer. The Monkey Bike Shine restores the original shine to your bike. It allows polishing, cleaning and protecting in a single step. It has a maximum gloss action, prevents dirt build-up, protects and leaves a sparkling shine on metal, plastic and rubber parts. Can be used before your outings or after washing, the Bike Shine has a repellent action against mud, dust and water, it reduces the adhesion of impurities and not only repels moisture but dries completely. It leaves a protective layer, which does not stick and increases the lifespan of your bike or your parts.

Features :

- Reduces future cleaning and maintenance work
- Easy to use on paints, chromes, all metal and carbon parts, does not alter plastic parts or joints
- Effortless application, leaves a long-shining protective layer

RRP
15,90€

BRAKE CLEANER

Monkey Brake Cleaner removes quickly: dirt, dust, brake oil, grease, mud, etc... it gives a new life to your brakes. Above all, it improves braking performance and reduces squealing.

The feel of your brakes is essential, which is why we created the Monkey brake cleaner.

The Monkey Brake Cleaner also re hydrates your brake pads, making them more optimal and prolonging their service life. Monkey's Sauce brake cleaner dries quickly without leaving any residue.

Does not attack rubber, plastic, painted surfaces or anodized metals. Low toxicity to prevent damage to seals or components. Suitable for use on all braking systems.

In a few gestures, find a brake like you have never experienced!

Features :

- Quick and effective use
- Improves braking performance
- Quickly removes dirt, oil, grease, brake fluid... - - Reduces brake squeal
- Quick drying without leaving residue

EBIKE FRIENDLY

RRP
13,90€

SPRAYS

DEGREASER

The Monkey Degreaser quickly and safely removes deposits of oil, grease, dirt and all contaminants accumulated on metal, plastic, rubber, etc.
Can be used on all types of chains, derailleurs, components and bearings. It allows cleaning faster and with disconcerting ease. The Monkey degreaser evaporates quickly to leave a dry finish. Regular use during cleaning will help prevent transmission deterioration. This ensures higher performance longer. Less cleaning time means more time on the bike !

Features :

- Removes grease, dust, etc quickly and efficiently
- Usable on all types of materials, rubber, metal, plastic, carbon, etc
- Also on all components of your bike (chain, derailleur, bearing, etc.)
- Cleans to the smallest residue of grease, including waterproof

EBIKE FRIENDLY

RRP
13,90€

FOAM

The MONKEY foam is dedicated to your equipment : cleaning, deodorizing and disinfecting!
The MONKEY foam attacks all the dirt and smells : Perspiration, mud, dust, grease, etc.
Helmet, shoes, protective jacket and knee pads will be clean and disinfected.
You can apply it everywhere, both textile and plastic.
Active cleaning foam is our solution for your equipment.

Features :

- Eliminates, cleans and can be used on all types of surfaces
- Does not leave a trace after being wiped and deposits a non-greasy protective film
- Contains two active agents that eliminate bad odours
- Non-corrosive, does not degrade varnishes, plastics and fabrics

RRP
14,90€

LUBES

ULTIMATE CERAMIC LUBE

Specially developed for use in wet and muddy conditions, the Monkey Ultimate Ceramic Lube is a highly refined oil that contains ceramic nanoparticles to help with durability and proper lubrication.

It was created to keep a smooth, clean, silent and rust-free transmission even during your muddiest outings. It repels water to protect the chain and components.

Features :

- Ideal for moisture control
- Repels water for chain and component protection.
- Excels in wet and muddy conditions.
- Ensures smooth and silent speed changes.
- Reduces friction
- Pipette system for easy application.
- Provides protection against wear.
- Ideal for mountain biking, road, cyclo-cross, etc.

EBIKE FRIENDLY 150ml & 30ml

Ceramic is the main component of our lube for wet conditions. It is the most effective lubrication solution in wet conditions, it prevents the accumulation of dirt on the chain and is completely resistant to water. This lubricant does not produce large traces of dirt.

Can be applied to the chain, levers, cables and derailleurs, guarantees a safe change of speed and total protection.

RRP
30ml : 5,20€
150ml : 14,90€

ALL CONDITION LUBE

Versatile lubricant for your bike chain. The All Condition lube offers optimal protection and lubrication to your bike chain whatever the weather and terrain! It is our most versatile lubricant, perfect mix between oil and wax, it fights against moisture, mud and rain as well as dust

Features :

- Ideal under any conditions
- Reduces friction
- Provides protection against wear.
- Ensures smooth and silent speed changes.
- Repels water for chain and component protection.
- Pipette system for easy application.
- Ideal for mountain biking, road, cyclo-cross, etc.

EBIKE FRIENDLY 150ml & 30ml

RRP
30ml : 4,90€
150ml : 13,90€

WAX DRY LUBE

The MONKEY Wax Dry Lube is a chain lubricant for occasional use, composed of 3 different types of waxes. Ideal for fighting dust, it provides deep lubrication and prevents dust from attaching to the chain.

Features :

- Ensures smooth and silent gear changes.
- Reduces friction
- Repels dust.
- Excels in dry conditions .
- Pipette system for easy application.
- Provides protection against wear.
- Ideal for mountain biking, road & cyclocross, etc.

EBIKE FRIENDLY 150ml & 30ml

Its anionic structure allows it to reach a negative polarity and thus to have a greater attraction to metal (chain).

RRP
30ml : 3,90€
150ml : 10,50€

ULTIMATE DRY LUBE

Monkey Ultimate Dry Lubricant has been designed to accompany you on long rides in the summer, in the dust. It's a high-end lube, durable and penetrates deep quickly thanks to its oil nanoparticle ceramics and its four types of waxes.

Our unique formula deep cleans your chain from dirt and substitutes with a mixture of oil and waxes. It also offers excellent protection against corrosion, wear and reduces friction.

Features :

- Ensures smooth and silent gear changes.
- Ideal in dry weather - Sustainable .
- Reduces friction
- Additional protection against impurities and dirt.
- Pipette system for easy application.
- Provides protection against wear.
- Ideal for mountain biking, road & cyclo-cross, BMX, etc.

GLASS CLEANER

MICROFIBRES

GLASS CLEANER

Cleans and protects your goggles for optimal vision! Thanks to its unique formula, you can quickly remove dirt, dust, dirt, snow, sweat and oily residues while applying an anti-fogging film.

Compatible with snowboard/ski masks and sunglasses/glasses. You can clean your mask and glasses safely with our Glass Cleaner formula. Say goodbye to dust, dirt, dirt, sweat and oily residues.

The Glass Cleaner MONKEY removes fingerprints from stains. The anti-fog formula prevents your glasses from fogging, ensuring clear vision throughout your wrinkle. Our Glass Cleaner is designed for use on all kinds of goggles and glasses. It is safe for all materials, including polycarbonate.

RRP
150ml : 8,90€

MICROFIBRES

BIKE SHINE DEGREASER BRAKE CLEANER MONKEY'S SAUCE

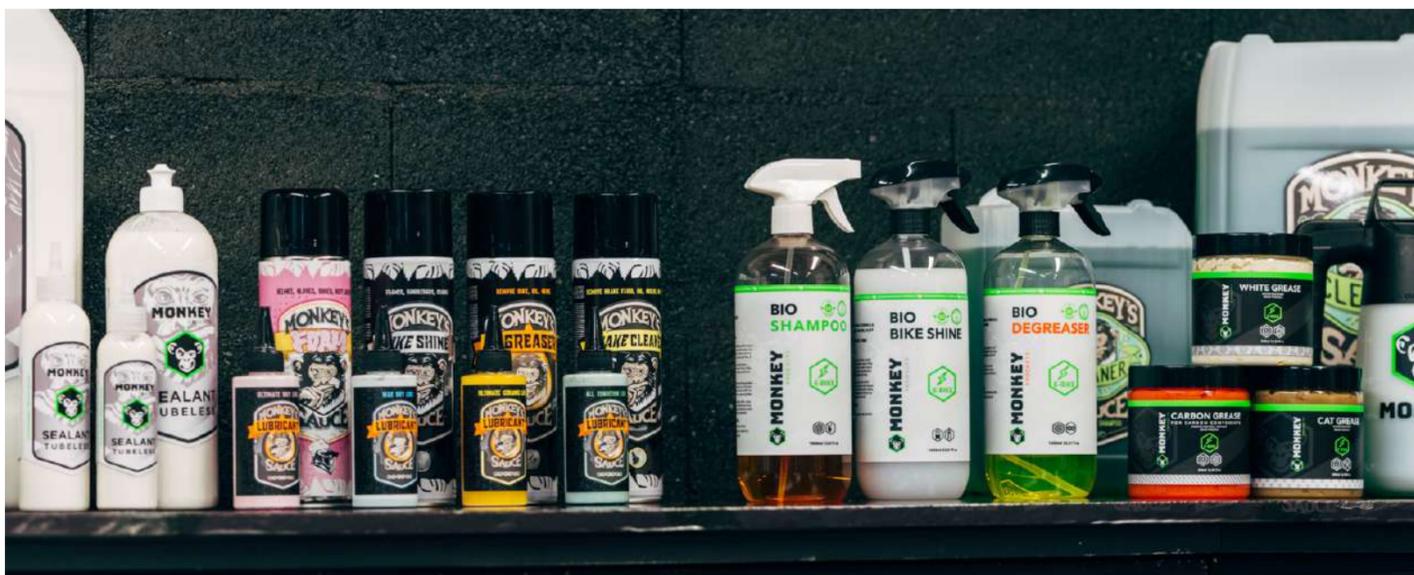

Ultra soft and non-abrasive microfibre that does not scratch any surface for results without traces.

Thanks to its specific design "BIKESHINE", "BRAKE CLEANER" or "DEGREASER", no longer mix your micro-fibers and avoid any contamination. Washable and reusable.

You can, rub, clean, polish and dry your entire bike and its components for a smooth, clean shine.

Ultra-absorbent soft microfibrines are designed to trap all particles without leaving traces or scratches. They can absorb up to 8 times their own weight. Unlike paper towels or other cleaning wipes, MONKEY products microfibre cloths are machine washable and can be used hundreds of times without losing their absorbent power. For best results, wash them in cold water like colored clothes.

RRP
5,51€

RAD ROLL

RAD roll protection film: transparent. Adapt the dimensions according to what you want to protect. RAD Technology:

- Anti-perforation
- Anti-impact
- Self-healing
- Hydrophobic and no yellowing

RAD is the only beneficiary of the BODYFENCE X technology belonging to the French HEXIS group. Made in France and sold worldwide, our technology already protects planes, trains and Formula 1, let it protect your bike.

This kit acts as a shield on your bike, no more paint chips, chain impacts, friction marks and shocks during transport. Your 200 µm thick kit consists of a Polyurethane film highly resistant to abrasion and impacts. The latter is self-healing as well as hydrophobic, the mud does not adhere.

Treated against UV, it does not yellow over time, it is a lifetime commitment.

It is the best ally to your original paint, install this protection kit and keep the original look, better!

Your protective film will give a shiny or matte look to your bike.

This adhesive film is to apply with water to guarantee its invisibility once installed.
